CHOOSES THE
Jet Provost
BRISTOL SIDDELEY VIPER TURBOJET

6 AIR FORCES HAVE NOW
ADOPTED THIS MULTI-
PURPOSE JET TRAINER

The versatile Jet Provost, with its docile low speed handling qualities, enables pilots without previous flying experience to fly solo after an average of only 11 hours dual—yet its relatively high performance makes it equally suitable for more advanced applied training exercises and tactical support roles.

The Jet Provost is already in service with the Royal Air Force and with the Air Forces of Ceylon, Sudan, Kuwait and Venezuela.
