

MISSION ACCOMPLISHED

The sales presentation was a complete success. Two and a half hours before they had been at Head Office—over a thousand miles away. Now they can relax and enjoy a fast, quiet flight back, in their company's Hawker Siddeley 125 business jet.

More and more companies are realising the value of a private business aircraft. Many are choosing the Hawker Siddeley 125. It is powered by two Bristol Siddeley Viper engines and can carry six passengers and their baggage twice as fast as a piston engine aircraft.

Other Hawker Siddeley civil aircraft include the Trident passenger jet, the 748 twin-turboprop passenger aircraft, and the Argosy freighter.

HAWKER SIDDELEY 125

Hawker Siddeley Aviation, 32 Duke Street, St. James's, London S.W.1. The largest aviation company in Europe. Other Hawker Siddeley companies supply missiles, rockets, aerospace equipment, electronics, electrical power generation and distribution, locomotives, marine and industrial diesel engines, gyros and platforms for sea, land and air navigation, light alloys, agricultural equipment, tankers and refuellers, and other general engineering products.
